

Compass Sales Solutions Announces Release of New Web and Smart Phone Accessibility Application

Ensure *all* of your Customer's critical information is in the palm of your hand at all times.

Boise, ID – April, 2011 – Compass Sales Solutions, the leader in Sales Opportunity Management software announces the release of their newest creation, SherpaGo. This innovative application enables your Sales Team to securely and easily access your client and prospect information in Sherpa, from any web enabled device.

This new feature allows for complete and secure access to your Sherpa database from the field using smart phones, PDA's, iPads, Android tablets and any other device with web access. Now you can view, edit & update client information, such as addresses, contacts, activities, equipment, service history, etc, while in the field.

SherpaGo provides detailed customer contact information in an easy to read format, including but not limited to contact information, activity details, equipment information and pricing, as well as integration with Compass Lease Tracker. Users can also update vital contact, activity and equipment information instantly while on the customer's site and features the ability to automatically dial and email using a smart phone, as well as search for customers and prospects by location to maximize efficiency while in the field.

Compass Sales Solutions understands having client information on the go is vital for time management and sales success. "This new tool allows users to virtually work from anywhere at any time." says Troy Casper, President of Compass Sales Solutions. "Having immediate access to this vital information increases the productivity of users and allows them to be more effective in the field."
